August 25, 1982

TO: COMMERCE - Mrs. Helen Robbins  
CIA - Mr. Thomas B. Cormack

SUBJECT: Tasking on Sanctions Data

To confirm the discussions with Mr. Kritzer and Mr. Ernst in Mr. Buckley's office this afternoon, we request the following studies from Commerce and CIA in support of the SIG-IEP. The deadlines are tight but the requirement is urgent. Your prompt action is appreciated.

Commerce - A summary of oil and gas technology and equipment trade between U.S. firms and their subsidiaries in Europe in items destined for the USSR, to include dollar volumes.

CIA - A list of critical items of oil and gas equipment and technology which might be embargoed by the COCOM countries and the denial of which would have serious impact on Soviet exploration, development, and production of oil and gas.

- As assessment of the impact, short and long term, that we would expect in the USSR following denial of the items. Factors in the impact should include cost, reallocation effects, and the speed with which the Soviets could replace the denied item through indigenous or imported technology.

- An assessment of the impact of denial upon European countries and the U.S.

These papers are due in Mr. Buckley's office by COB Friday, August 27.

L. Paul Bremer, III  
Executive Secretary
